

LEATHER NUN america - ABSENCE OF LIGHT CD (PSY 034)

Brand new ass heavy doom rock of this power trio from California!

Their new songs are potent and full of veritable grooves. Comprised of solid tracks of beefy girth, rotund melodies, confident playing, glutonic volume, swift dynamics, majestic vocals, a lot of this material is directly derived and even somewhat lifted from seminal bands like Pentagram, Saint Vitus and The Obsessed.
