RAMESESSES - MASTER (YOUR DEMONS) / RAMESESSES II

gatefold 7" (PSY 006)

The first tracks of original Electric Wizard members Mark Greening and Tim Bagshaw's new project are unearthed...damaging.

Where the Wiz take things down a more psychedelic path, Rameesses hang a severe right. It's much more straightforward pummeling, more Venom-y and Frost-y than their previous employer. Tim moves from bass to guitar, Mark on drums (and a nice turn on the Hammond at the beginning of "Master (Your Demons)") while new guy Adam Richardson provides bottom-end anchor and guttural bark.
