...making DOOM revolution...

RAMESSES / NEGATIVE REACTION split CD (PSY 007)

- 1. A song for constance (Negative Reaction)**
- 2. NOD (Negative Reaction)**
- 3. Master (your demons) (Ramesses)**
- 4. Ramesses II (Ramesses)**

After 10 years under the curse of the Wizard, original band members Mark Greening (drums and piano) and Tim Bagshaw (bass) quit the crown jewel of British Doom - Electric Wizard to concentrate on their new band, which they have baptised RAMESSES. The line up is completed by bassist/vocalist Adam Richardson -- Tim Bagshaw is playing lead guitar now.

Ramesses is a psychedelic space blues doom band with massive volume. psycheDOOMelic is proud to be chosen for presenting their first hellish sonic battle.

On the first half of the CD, you have **NEGATIVE REACTION**: Doom / sludge metal gets a new dose of crushing low-tuned Sabbath-molded riffage and "Jerusalem"-like devastating intensity. File next to Bongzilla, Grief, Sleep, and Burning Witch.
