...making DOOM revolution...

WORLD BELOW - MAELSTROM (PSY 019)

World Below is a four-piece out of Sweden bringing back the more classic Doom metal atmosphere that began with Black Sabbath in the 70's, adding some epic touch in the vein of Candlemass, Doomshine to it's music.

Totally epic majestic Doom Metal from Sweden featuring members of Carnal Forge and Centinex - Fans of Candlemass, ThunderStorm and Orodruin rejoice!! (Hellride)

On their actual longplayer "Maelstrom", World Below presents majestic doom metal hymns; they are one of the best newcomers in the doom scene (in our opinion), watch out for live shows to come by late 2005, early 2006.
