*...making DOOM revolution...*

## **PALE DIVINE - THUNDER PERFECT MIND (PSY 020)**

(re-issue w/ two bonus live tracks, previously on Game Two Records)

Pale Divine are one of one of the brighter stars in the contemporary doom firmament. Heavy, 70's flavoured doom with the onus on songwriting and fluid wah-wah drenched solo's. A modern day equivalent of the wondrous Pentagram.

**PALE DIVINE** is sure to please fans of **PENANCE**, **TROUBLE**, **SAINT VITUS** and **PENTAGRAM**.

Re-release of the out of print debut album on Game Two w/ two lengthy live cuts in time for their European tour. This wonderful CD will fully satisfy all open minded fans of the genre. A real heavy load of different sounds and stylistic mixtures. From doomy CATHEDRAL-style songs, through heavy rockers, even to epic ways this album will take the listener to.
