

HABSYLL - MMVIII DIGIPACK CD (PSY 041)

Huge swathes of noise, odd drumming, odd sounds, it really sounds fucked up - totally slow, brutal and grim. This is awesome.

It's somewhere between MOSS, GRIEF, CORRUPTED, TEETH OF THE LIONS RULE THE DIVINE, and noise / chaotic bands like BURMESE, GRAND ULENA, WOLF EYES... not for melodic doom rock fans, and not for fucking trendies!
