

IRON HEARSE – LUNAR FUNERAL 12" / CD COMBO

(PSY 049)

on psycheDOOMelic records

Unusual combination of a 12" LP AND CD, this limited (500) edition vinyl comes on weighty black vinyl w/ insert that includes all tour dates of their first European tour. The extra CD (not CD-R!) includes their tune "Rocketbuilder" from the tour 7" with their mates Leather Nun america.

The four new songs show you the path these English doomsters will head to in the next years. The trio plays old school traditional doom heavily influenced by The Obsessed. Excellent guitar work and totally awesome a bit gruff, Lemmy-like vocals by singer Grant makes this to a fantastic release. Old school riffing doom of the highest order! If you've missed their European tour, the tour 7" with Leather Nun america and this 12"/CD combination is your best choice to discover what the lucky fans were able to experience at the shows. Doom on!
