

MAGMA RISE – LAZY STREAM OF STEEL (PSY 050)

on psycheDOOMelic records

Old school traditional doom-metal of the highest order with clean vocals in Black Sabbath style. Magma Rise is from Hungary, this is the new band of Gábor (ex Wall of Sleep) and Kolos (Stereochrist).

Excellent dual guitar harmonies towards Trouble/Black Sabbath, good heavy riffing, thunderous bass by Gábor, pure doom sound and clean vocals. Magma Rise is recognized as purveyors of some of the highest-quality Sabbath-inspired riffing doom available. Highly recommended!

The Mood cover "Glow burn scream" features Mood axeman Sanyi on guitars and vocals by Kyle Thomas Floodgate, Witch fame.
