

# SATURNALIA TEMPLE - UR DIGIPACK CD (PSY 040)

Ultra slow, sluggish and heavy psychedelic/spacey music, one of the top new doom bands around, Saturnalia Temple features members of Therion and Kaamos. This is the debut digipack release of the Swedish doomsters, and a must for everyone into Pentagram, Electric Wizard, Black Widow...

Saturnalia Temple is not merely riding the retro-trip, as so many are today, but is a journey of BLACK MUSICAL INITIATION from the QLIPTIC spheres, a timeless chant channelled into the MUSIC-RITUAL. The effects of their CHANTINGS, vibrations and hellish rhythms have been cast in IRON by the underworld smithery of TUBAL KAIN. They are here to follow the ANCIENT TRADITION of shamanic TRANCE, hard rock and blues, thus making a lot of noise, spreading general HYPNOSIS and EVIL VIBRATIONS.
