

# SPIRITUS MORTIS – S/T VINYL 2 LP (BLACK, SILVER EDITION)

(PSY 038)

psycheDOOMelic is proud to announce the limited edition vinyl release of Spiritus Mortis' self-titled album (originally released on CD in 2004 on Rage of Achilles). Teemu is very pleased with the way the vinyl project turned out: "We just listened to the test-pressing and it sounded greeeaat. And the versions of the LP cover we received are really cool!" Jussi is also enthusiastic: "The music is better than on CD: clearer, 'warmer', more 'alive!'"

As Teemu knows, there is even some bonus material on there: "Yes, it is a double album, S/T on sides A, B and C and bonus stuff on side D. The 2000 demo, our version of Trouble's 'At the End of my Daze' plus a live version of 'Wasteland' with Tomi Murtomäki singing, taken from the Turku gig of the '20 years of Spiritus Mortis' tour. Something special for this very special vinyl release!".
